

LAGRANGE COUNTY REGIONAL UTILITLY DISTRICT

ADDITIONAL GUIDELINES FOR INSTALLING CONTRACTORS

THE FOLLOWING ITMES ARE INTENDED FOR GUIDING YOU AND YOUR STAFF THROUGH THE NEXT PHOASE OF CONNECTIONS WITH FEWER PROBLEMS FOR THE HOMEOWNERS, THE UTILITY DISTRICT AND YOURSELVES

Please **DO NOT**:

- Dig within 4 feet of the station with power equipment
- Use the grinder pump stations or low pressure sewer system piping to dispose of septic waste
- Open the inlet piping if there is a chance of allowing backfill materials into the pump station
- Leave a station that you know is damaged without informing the Utility District or the inspector

Please **DO**:

- Check the connections prior to backfilling
- Obtain the proper permit prior to starting any connection work
- Inform the District of any potential safety or operating problems you encounter during the connection process
